

PREVENTION OF COVID-19 IN SCHOOLS IN ST. KITTS AND NEVIS

GUIDELINES FOR TEACHERS

USAID
FROM THE AMERICAN PEOPLE

unicef 
for every child

- ✿ Share plans for the week with students and families, including learning objectives, activities, assignments and links to resources.
- ✿ Allow real-time interactions with students to deliver lessons and facilitate discussion.
- ✿ Archive lessons for students to access later.

- ✿ Use an agreed communication plan to interact with students and families, respond to their messages in a timely fashion and give updates on students' progress.

- ✿ Monitor student participation in activities, assignments and assessments, and provide timely feedback on work submitted.
- ✿ Identify appropriate activities and assignments for students who need additional support or enrichment activities.

- ✿ During the homeroom sessions in secondary schools, teachers should engage students in active discussions and help them to adjust to the school environment.

- ✿ At primary level, small groups of students can share their thoughts and concerns.

- ✿ Class teachers should refer any students who display worrying behaviour to guidance counsellors.
